Its Body Is as Sturdy as Its Chassis

Lasting satisfaction with a closed car depends not only upon the dependability of the chassis but upon the durability of the body.

In the Special Six Sedan, Studebaker offers an admirable co-ordination of these vital requirements.

Step in at our showroom and see this Sedan. Stand off and get a three-quarter view of it. Note its striking beauty. Step inside and relax in the new-inch seat cushions. Note the great roominess and the completeness of the equipment.

Take a ride behind its 50-horsepower motor. Try the wheel yourself. Put it to any test—every test. Try its acceleration, speed, power. Ask yourself if you ever handled a car that steers so easily—that responds so satisfactorily with just what you want, when you want it.

The body is a product of Studebaker skill and craftsmanship which have been developed through more than two generations of vehicle building. Highest grade of materials and workmanship have produced a body as beautiful as it is enduring.

This Sedan is a good investment because of the saving in the initial outlay and the moderate cost of maintenance. The price is possible because Studebaker builds three distinct models with only one manufacturing and marketing cost and because middlemen's profits are virtually eliminated.

The name Studebaker stands for stability of body as well as chassis.

Four doors that swing wide open. Heater. Automatic windshield wiper. Rear view mirror. Shielded radiator. Courtesy light. Jowled night day racks. Cool ventilator. Third gear transmission lock. Run valve. Equipment center lights. Massive headlights. Arranged touch lamps. Simple motor in window lifts raise or lower glass windows.
